PROFESSIONAL SUMMARY

Frontend Developer with 5+ years of experience in creating scalable, responsive, and user-focused web applications using React.js. I design and implement the SaaS dashboard interface. Proficient in frontend architecture, API integration, testing, documentation, and cross-functional collaboration. Demonstrated ability to deliver dependable solutions in remote, Agile, and fast-paced environments while ensuring consistent, reusable UI components.

CORE SKILLS

- **Frontend:** HTML5, CSS3, JavaScript (ES6+), React.js, Next js
- **Styling:** Bootstrap, Tailwind CSS, Sass/SCSS
- **Testing:** Jest, React Testing Library
- **Tools:** Git, GitHub, npm, Vite, Webpack, Babel, Postman
- **Backend Integration:** REST APIs, JSON, Axios, Fetch API, Node.js, Express.js, Mongo DB
- **Deployment:** Netlify, Vercel, Firebase
- **Design:** Figma, Canva
- **Other:** WordPress, SEO, UI/UX Principles, Responsive Design

---

SELECTED PROJECTS

Cleaning Service Web Application (React.js, JavaScript)

- Built a cleaning service web application using **React,** that allows clients to **book cleaning services online**
- Implemented an intuitive booking form where users can select service type, date, location, and provide contact details
- Integrated **online payment functionality** to enable secure and seamless client payments
- Configured **email notification system** so that submitted booking details are automatically sent to the business owner's email in real time
  Live: https://kolekodotin.netlify .app

WasteUp – Smart Waste Pickup Web Application (React.js, TypeScript)

- Built a waste management web application using React that allows residents to schedule waste pickup services online.
- Implemented an easy-to-use booking system where users can select pickup date, location, waste type, and provide contact details.
- Developed an admin dashboard for monitoring requests, managing users, and tracking service activities.
- Integrated backend functionality with Local storage to store and manage pickup requests in real time.
