ABOUT ME

Highly skilled React Developer with 3 years of experience in developing and implementing front-end architectures that have resulted in significant increases in page load speed and user engagement. Proficient in collaborating with back-end teams to integrate user-facing elements with server-side logic, implementing automated testing platforms, and optimizing components for maximum performance.

PROJECTS

Paypal Landing Page | (Built a functional clone of the PayPal landing page using React.) | <https://github.com/DeEminentCoder/Paypal-clone> | <https://paypalstaticwebclone.netlify.app>

HTML, CSS, ReactJS, Bootstrap

- I solidified my knowledge of JSX, components and state management while building the interactive elements of the page.
- I focused on replicating the visual design of the landing page using HTML and Bootstrap for interactivity.
- Responsive design for different screen sizes.

Personal portfolio website | (Developed a personal portfolio website using React.) | [DeEminentCoder/my-portfolio](https://github.com/DeEminentCoder/my-portfolio) | <https://my-portfolio-frontend-kehinde.netlify.app/>

HTML, CSS, ReactJs, Bootstrap

- I incorporated elements that showcase various aspects of my React development skillset, such as creating interactive components and utilizing animations and transitions.
- Apply best practices for UI/UX design within a React framework.
- Independently manage and complete a personal development project.

Task Management App | (A user-friendly application for tracking and managing tasks.) | [DeEminentCoder.github.io/ToDo-App](https://github.com/DeEminentCoder/ToDo-App) | taskmanagement-todo.netlify.app

HTML, CSS, JavaScript, Bootstrap

- Users can easily create new tasks, projects, or to-do items
- Users can quickly locate tasks using search functionalities
- Users can access and modify tasks even without an internet connection

EDUCATION

Computer Science | **Ladoke Akintola University(Lautech), Ogbomoso**

2024 – present

Oyo, Nigeria

- Degree(B.Sc)
